Your single source: High-efficient float glass production, glass coating, glass processing as well as high-capacity production of flat solar mirrors. Everything is highly automated, precise and efficient.

As a leading solar-powered glass manufacturer, First Glass is dedicated to innovation in the development and production of advanced solar-powered glass solutions.

AGC"s solar glass range includes high reflectivity solar mirrors as well as high transmission solar glass substrates (Sunmax) to be used for solar concentrators and solar receivers.

Our transparent solar glass panels are available in various transparencies allowing light in whilst providing clean solar energy. Take a look through our completed projects for inspiration or a better ...

The NSG Group offers a range of specialised glass and coated glass products used in all of the leading solar energy technologies, including thin film photovoltaics, crystalline silicon photovoltaics, ...

UK Solar Power is a leading British global manufacturer of solar solutions with distributors in over 21 locations worldwide and three manufacturing plants, we are committed to delivering high-quality solar ...

Glass Light Power is revolutionizing the solar industry by manufacturing high-quality solar roofing systems in the UK. As one of the few dedicated solar manufacturers in the country, we design, ...

LZY Energy delivers customized, grid-tied solar power systems specifically designed for commercial buildings. We go beyond just solar panels, offering integrated energy storage solutions for reliable ...
