What makes Tissot Powermatic 80 so special?
In the world of affordable Swiss mechanical watches, Tissot's Powermatic 80 movement stands out as a significant innovation. With an impressive 80-hour power reserve, it brings both technical edge and practical reliability to the table. But what makes this movement so special--and why should you care about those extra hours?

What is a Tissot watch?
All women's models in Tissot's current lineup are powered by quartz calibers, and come as three-hand watches or chronographs. The ref. T101.910.22.116.00 is a 36-mm two-tone variant. The bezel, middle links of the bracelet, indices, hands, and crown are coated in rose gold.

Why should you choose Tissot?
These icons, both symbols of their era, have been resurrected for a new generation. For Tissot, timekeeping is an incredible commitment, provided by an experienced team of professionals who simply love the sport of cycling. Triumphs, setbacks, and unexpected twists are part of every race, of every competition.
