The system consists of one set of 215kwh battery unit, one set of 100kw PCS with liquid cooling system and gas fire protection system, which improves product efficiency and working stability.

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety ...

Our Outdoor 100KW/215KWH Cabinet Energy Storage System boasts several notable advantages. Firstly, its modular design ensures easy installation and maintenance, with the flexibility to scale ...

The 100 kWh battery system is designed in a cabinet. It can protect the battery system well and also isolate the high voltage battery from the outside to reduce the safety risk.

Modular PCS Design --We can precisely size the system according to your project, with features of easy expansion and fast maintenance. On-/off-grid in One Platform --optional STS and transformer ...

This energy storage system adopts a liquid-cooled thermal management solution, with a nominal capacity of 215kWh and an output power of 100kW; it consists of 5 sets of 153.6V280Ah lithium iron ...

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

Configured with a rack-mounted modular PCS, it supports parallel connection of multiple machines and has good scalability; the number of PCS modules and the total battery power can be selected ...
