How much energy does a containerized wastewater treatment plant use?

No planning or buildings are required to operate a containerized wastewater treatment plant - the plant simply needs to be placed on a solid base. This saves costs in advance, and the system is also highly efficient during operation: a 20-foot container only needs 13 kWh/d. Container.One, Container.One+, Container.Pro and Container.Xtra.

What is a containerized wastewater treatment plant?

A containerized wastewater treatment plant is a wastewater treatment system that is fully integrated into a container. For uncomplicated and fast transportation, we use 10, 20 and 40-foot shipping containers in accordance with the international ISO standard for our KLARO container systems.

How many m3 of wastewater can a containerized wastewater treatment plant handle?

We have experience with containerized wastewater treatment plants for up to 1,380 PE or 207 m3 of wastewater per day. A wastewater treatment plant is only as effective and efficient as the installed system.

Where are Klaro containerized wastewater treatment systems made?

KLARO containerized wastewater treatment systems are all manufactured, pre-assembled and tested at our site in Bayreuth. You can rely on the top quality of all installation parts. Thanks to the high-quality workmanship, the systems can be operated in any climate zone.

Supplied pre-assembled in a robust steel container, the systems enable rapid commissioning on site, eliminating the need for extensive construction work. As well as their traditional use in municipal ...

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

In this article, we break down typical commercial energy storage price ranges for different system sizes and then walk through the key cost drivers behind those ...

KLARO Container is a flexible and mobile wastewater treatment system that can be used where a wastewater treatment system is required but there is no connection to the sewer system. KLARO ...

Mobile container solutions offer a flexible and efficient way to ensure emergency/power supply at various locations. The mobile variants prioritize fast transport and quick setup. The containers are compact ...
