We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry ...

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

Patented outdoor cabinet protection design, optimized heat dissipation channels, protection against dust, rain, and sand; front and rear double-door maintenance, suitable for on-site installation of ...

At the same time as the core node to achieve smart grid access. Distributed design: Multiple power cabinets and battery cabinets can be expanded to flexibly achieve large-capacity energy storage

It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the ...

The outdoor energy storage cabinet integrates modular PCS, energy management monitoring system, and distribution system. With modular PCS, it is easy to maintain and expand.

This 250kW all-in-one containerized energy storage system integrates lithium batteries, inverter, and smart energy management in a 20FT container for easy installation, transportation, and stable ...

The outdoor energy cabinet supports hybrid configurations with solar + battery + grid or diesel generator. The EMS intelligently switches among power sources for optimal cost-efficiency and continuity.
