Are there grants & funding options for solar energy in 2025?

Luckily, the U.S. government has your back. Whether you're a low-income homeowner or a rural resident, there are plenty of grants and funding options in 2025 to make solar energy accessible, affordable, and efficient.

Can I get a tax credit if I have a solar system?

Power your fridge, air conditioner, or entire home using the sun. ? Tax Credits and Rebates The Federal Investment Tax Credit (ITC) still offers up to 30% credit on your solar system. Some states and utilities also offer:

Is solar tax credit refundable?

The ITC is a credit as opposed to a deduction or a rebate, so the value goes against what you owe. The solar tax credit is non-refundable, meaning it cannot exceed the amount you owe in tax and would not directly increase any refund you would receive. Excess credit can be carried forward and used in future years if not all claimed in one year..

Does the Solar Energy Technologies Office provide financial assistance?

The Solar Energy Technologies Office (SETO) does not provide financial assistance to companies or individuals to install solar systems. The federal programs below may provide financial assistance to lower energy costs and may be applied to solar.
