-----

Custom design & fabrication of arc flash rated electrical switchgear in China; technical support from your initial design of your power distribution system;

PowerTel is a product & solution provider for building up a new electrical substation and its related arc flash protection device; our expert engineers are ready to answer any questions you ...

With a fast relay output speed up to 5ms, AFR-4 can minimize or ...

With a fast relay output speed up to 5ms, AFR-4 can minimize or completely eliminate arc flash damage, improving system safety and reliability. It can be used in various arc protection applications in low or ...

It supports 4-channels arc signal detection and can configuration multiple arc tripping modes, ensuring accurate and fast fault isolation. With a fast relay output speed up to 5ms, AFR-4 can minimize or ...

Our arc protection relays can detect arcs by monitoring parameters such as current, voltage, and electric power, and quickly disconnect the power supply before an electrical fire occurs, thereby reducing the ...

Human errors of personnel working on the switchgear, condensation, lack of maintenance or even small rodents and insects can trigger an arc flash. Eaton offers a comprehensive range of solutions to help ...

All Sell-Best arc protection relays can use fiber optic sensors to detect arc flashes or arc faults within milliseconds. Their compatibility with various communication protocols and interfaces enables ...
