-----  
How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

What is a solar container home?

Featuring integrated solar power, rainwater collection, and a composting toilet, it empowers you to live independently and sustainably. Simply place this container home on your land, deploy the solar panels, and let nature do the rest. Your off-grid adventure awaits!

Which battery bank should I choose for the Instant off-grid containers?

Choose between a GEL Deep Cycle Sealed Lead Acid battery bank or a next-gen Lithium Iron bank. See below for more details and pictures. Pre-configured by RPS engineers. 370W solar panels power the Instant Off-Grid Containers. Each panel measures 69.1" x 40.9" x 1.4".

What is a 20 & 40 ft shipping container?

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. Fully customizable to your exact needs. The durable container design is completely waterproof, protects you and your equipment from the elements and any potential security threats.

Our 40ft Solar Container isn't just a storage solution; it's a powerhouse on its own. We've seamlessly integrated high-efficiency solar panels into the container's structure, capturing solar energy 24/7.
