What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects--all while reducing carbon footprint and cutting energy costs.

What is a solar container build?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system. What's included in a solar container build?

What is a solar-powered refrigerated container?

A solar-powered refrigerated container is efficient, easy-to-maintain, and designed to offer the highest level of performance. Whether it's for onsite cold storage or for transport applications, our solar powered refrigeration containers deliver in every aspect.

What are the advantages of a container roof solar system?

1. Integrated Solar Array High-efficiency solar panels installed on the container roof or fold-out frames.
2. Battery Energy Storage Lithium-ion or deep-cycle batteries store energy for use day or night.
3. Inverter & Control Systems Converts solar power to usable electricity with smart monitoring.
4. Weatherproof & Secure

We design and build shipping containers featuring integrated solar systems that can be used to provide microgrid energy solutions.

Basketball Stars is an interesting 2 player basketball online game in which you need to choose your team and take part in a challenging tournament.

Australian Solar Container solutions deliver reliable, portable, cost-saving off-grid energy for Australia's remote, harsh locations.

Ready to ride the waves in Summer Rider 3D? Pass all obstacles, collect starfish, and upgrade the board to reach the board of the endless race!

SUPER THERM®; 30 years, 20-50%* energy saving, stops 96.1% of solar heat; certified & tested
