-----

The 6kW to 19kW Three-Phase Grid-Tied Solar Inverter from HuiJue Group is engineered to maximize energy harvest for demanding residential, commercial, and small-scale industrial solar installations.

Featuring 12-layer protection against voltage spikes, reverse currents, and thermal overloads, the Zantia hybrid inverter exceeds IEC 62109 standards. Its arc-fault detection system prevented 143 potential ...

Huijue Group's Home Energy Storage Solution integrates advanced lithium battery technology with solar systems. Ranging from 5kWh to 20kWh, it caters to households of varying sizes.

Home energy storage systems can store excess electricity through solar panels during the day and use this stored electricity at night, thereby reducing the need to purchase electricity during peak hours.

The SOFAR 11-18KTL-LV takes the opposite approach - it's built specifically for Brazil's unique energy landscape. With electricity prices jumping 24% last year in S&#227;o Paulo alone, households are ...

It can provide super-high fast charging current and high-efficiency energy conversion and storage, which is more cost-effective, more reliable, and more practical, and provides sufficient safe electrical energy ...

The HJ-SPW residential wind and solar energy storage integrated system is a combination of equipment and technology that converts wind and solar energy into electrical energy, supplies household ...

Whether in residential homes or commercial buildings, Huijue Group's new generation home energy storage inverter system delivers efficient, convenient, and reliable energy solutions, ...
