Can a brother and sister sleep in the same room?

We've discussed the privacy concerns that may arise with children of the opposite sex sharing a room beyond puberty, but is it illegal for a brother and sister to sleep in the same room? Federal law has no guidance on opposite-gender siblings sharing a room.

Can a child sleep in the same bed with a foster parent?

A child should not sleep in the same bed as a foster parent. Beyond a certain age (generally, a year old), a child may not sleep in the same room with the foster parent. However, there are exceptions in the case of a medical condition or a temporary illness, but a doctor's intervention may be required.

Why did Shannon Lambert stop sleeping with her 8-year-old son?

Shannon Lambert co-slept with her eight-year-old son until he was almost seven. She stopped after the birth of her third child because there was no room in the bed. But that doesn't mean that things aren't changing in terms of what her son feels is appropriate. "In public now, I can't even kiss or hug him goodbye.

Can two children share a double bed?

Each child must have his or her own bed and mattress. In some cases, two children of the same sex may share a double bed. Babies must be provided cribs. The mattress should be firm or orthopedic and in good, clean condition with a waterproof cover. Bedding must adequately accommodate the seasons.

Many experts recommend separate rooms around ages 9-12, but alternatives like room dividers can buy some extra time if needed. With open conversations and respect for each child's ...

Sharing a bedroom may make it difficult for both children to get the sleep they need. Imagine that you have an 11-year-old and a 5-year-old sharing a room. The teen will be unable to ...
