What is a border outpost?

A border outpost, border out post, border observation post or BOP is an outpost maintained by a sovereign state on its border, usually one of a series placed at regular intervals, to watch over and safeguard its border with a neighboring state with which it may or may not have friendly relations.

Where are border outposts built?

Border outposts, where available, are built on strategic locations which are usually elevated at the highest points in the local terrain and where possible on hilltops along the border.

What is the IDEAA interior distribution cabinet (IDC)?

The IDEAA Interior Distribution Cabinet (IDC) provides a convenient modular approach to centralized fiber distribution in medium to large MDUs. The IDEAA EWME enclosure is designed to mount on an exterior wall or post/pole to provide OSP protection.

What happens if a Border Guard based on the BOP confirms intrusion?

In case intrusion by foreign elements is confirmed, it is the responsibility of the Border guard based on the BOP to trace the intruders by checking the nearby settlements, villages and towns and inform the law enforcement agencies, Customs and Police authorities.
