EDF, in partnership with Generadora Metropolitana, has inaugurated CEME 1, Chile's largest solar power plant, located near Maria Elena in the Atacama Desert. The 480MW facility covers 435 ...

With a capacity of 480 MW, CEME 1 was built and will be operated by Generadora Metropolitana, a company jointly owned by EDF and AME. Located seven kilometers from Mar&#237;a ...

There is a place in Chile's Atacama Desert where the power of the sun never seems to set. It is the Quillagua photovoltaic power plant, officially inaugurated on 8 April in the municipality of ...

Guanchoi will generate more than 1,100 GWh annually to power more than one million Chilean homes, avoiding the emission of around 900,000 tons of CO2 into the atmosphere.

Chile has inaugurated Latin America's largest solar power plant equipped with battery storage, marking a significant milestone in renewable energy. This facility aims to enhance energy ...

On 8 July 2024, Chile's largest solar power plant, CEME 1, was inaugurated in an activity led by national authorities and in which participated key stakeholders of the energy sector.

In June 2014, the 100-megawatt (MW) Amanecer Solar CAP, a photovoltaic power plant located near Copiap&#243; in the Atacama Desert was inaugurated. It was developed by the company with the same name, Amanecer Solar CAP, and was the largest in Latin America at the time. It is capable of generating 270 gigawatt-hours (GWh) of electricity per year.

Spanning 435 hectares (1,075 acres), CEME1 is Chile's largest solar farm and a significant milestone in the country's renewable energy efforts. Featuring 882,000 advanced solar ...
