With a total investment of R165,970 million, this project marks China Sodium Energy's first industrial implementation of its proprietary vanadium flow battery technology in Northwest China.

With the pipeline of sodium-ion manufacturing plants relentlessly expanding, Guangde Qingna Technology Co., Ltd. officially signed an agreement on Nov. 20 for its 20 GWh sodium-ion ...

"China Southern Power Grid (CSG) announced on May 26 the commissioning of the Baochi Energy Storage Station in Wenshan, Yunnan province -- a national pilot project and the first ...

This project is part of a broader industrial strategy positioning the Suining zone as a central hub for the entire sodium-ion ecosystem, aiming to meet the booming demand for energy ...

The commissioning of the Datang Hubei project not only demonstrates the practical application potential of sodium-ion battery energy storage technology, but also points the way for the ...

This is currently the world's largest sodium-ion battery energy storage project and marks a new stage in the commercial operation of sodium-ion battery energy storage systems, Hina Battery ...

Sineng Electric makes its mark on the energy storage market with the world's largest sodium-ion battery project, aimed at diversifying storage technologies in China.

China launches world's first grid-forming sodium-ion battery storage plant The Baochi Storage Station in Yunnan integrates lithium and sodium-ion technologies at scale, a global first, ...
