In a new study published September 5 by Nature Communications, the team used K-Na/S batteries that combine inexpensive, readily-found elements -- potassium (K) and sodium (Na), together with sulfur...

We are working to integrate emerging technologies and optimize energy resources such as wind and solar power, battery storage and traditional generation systems.

The innovative Columbia Energy Storage Project, a partnership between the co-owners of the Columbia Energy Center near Portage, Wisconsin, has received approval from State regulators.

Fast facts Location: Town of Pacific, Columbia Co., Wis. | Size: 18 MW/180 MWh | Homes powered: about 18,000 Community benefit ers committed to a more sustainable energy future. This project will ...

Columbia Power & Water Systems is a public utility proudly serving the citizens of Columbia and Maury County since 1939. CPWS offers power, water, and broadband services.

While energy storage can lower emissions, renewable energy advocates say the climate benefits depend on whether the projects also drive development of wind and solar.

This reliance on external energy sources highlights the critical need for increased domestic renewable energy production, making projects like Columbia Wind all the more critically ...

The Columbia Energy Storage Project will be built in Pacific, Wisconsin, near the current Columbia Energy Center. Alliant Energy expects to submit project plans to the Wisconsin Public ...
