With over 20 years of experience, NPP Power specializes in custom lithium battery pack manufacturing. We provide tailored energy storage solutions that ensure efficiency, safety, and sustainability.

We use only top-tier, Grade A lithium cells for superior energy density, long cycle life, and faster charging capabilities. Our multi-protocol BMS provides 3-stage protection (voltage, temperature, ...

Lithium-ion battery pack manufacturing process includes separate cell sorting, assembly, and insulation stages to ensure high performance, safety, and longevity for all of our custom rechargeable battery ...

Our proprietary technology makes it possible to create custom battery packs to meet various operating requirements cost-effectively. See our cold temperature-tolerant custom battery pack, surge-and ...

Depending on the power requirements of your application, we will choose from cells that have high energy density, high power output, fast charge rate, long cycle life, temperature performance, ...

We are experts in the design and production of high-performance custom battery packs for a variety of applications, with a strong commitment to sustainable energy.

At Lithion, all of our battery packs are of the highest quality and efficiency. To simplify your choices, you can contact us and together we can talk through your unique energy requirements to create custom ...

Explore a wide range of custom battery pack assemblies in various chemicals and styles. Contact us to get a quote tailored to your specific application!
