Efficient and stackable, Upgrade your power storage solution with our 100V-400V Lifepo4 stackable battery and inverter, free expansion of voltage and capacity.

High voltage solar batteries (100V-500V+) for maximum system efficiency. Reduced conductor losses and simplified wiring. Compatible with modern hybrid and string inverters.

The EVERVOLT® home battery system integrates a powerful lithium iron phosphate battery and hybrid inverter with your solar panels, generator and the utility grid to provide your own personal energy store.

Discover BSLBATT high-voltage lithium batteries, ranging from 100V to 1500V and 10kWh to 1MWh. Ideal for residential, commercial, and industrial energy storage with advanced safety features.

High voltage battery is a type of battery that is designed to deliver higher voltage output compared to regular batteries (400v - 800v). It is commonly used in electric and hybrid vehicles, as well as in ...

High voltage battery systems typically operate at voltages above 100V and feature high energy and power density, long cycle life, and fast charging capabilities.

Featuring Degson quick-connect terminals and an optional conduit box, the WallMount Indoor 100Ah simplifies installation with a clean, professional finish. Ideal for pairing with the EG4 6000XP, it ...

We provide tailored 100kW battery storage systems to meet your unique energy needs. Whether you need a basic setup or a high-performance system, we can help you create the perfect solution.
