What is the Enphase Energy System?

The Enphase Energy System helps people make, use, save and sell their own power. This includes our industry-leading app, which provides unprecedented data and control in the palm of your hand.

Who owns the energy sector in Bhutan?

Bhutan's energy sector operations have separate commercial management and ownership from the government. The state-owned Druk Green Power Corporation (DGPC) owns and operates power plants while the Bhutan Power Corporation, also state-owned, performs transmission and distribution.

How can Bhutan improve its energy security?

To improve Bhutan's energy security while strengthening resilience to water variation and climate change, it is required to diversify power generation sources and types, including (i) solar farms, rooftop and floating solar, and agrivoltaics; and (ii) storage and pumped storage hydropower and small hydropower. 4 H. Nagai et al. 2017.

Who is responsible for energy policy in Bhutan?

The Ministry of Energy and Natural Resources set up the Department of Energy as the policy-making body after merging two departments, the Department of Hydropower and Power Systems, and the Department of Renewable Energy. Bhutan's energy sector operations have separate commercial management and ownership from the government.

Questions? Contact us. We'll help you build your system, today.

Founded in 2006, Enphase transformed the solar industry with our revolutionary microinverter technology, which turns sunlight into a safe, reliable, resilient, and scalable source of energy to ...

By establishing community energy banks, we aim to enhance energy security, reduce dependence on hydropower, and bring electricity to Bhutan's last unconnected communities.

Today, our intelligent microinverters work with virtually every solar panel made, and when paired with our award-winning smart battery technology, they create one of the industry's best-performing clean ...

Enphase is a global energy management technology company that provides residential and commercial solar plus storage solutions. We manufacture solutions spanning solar generation, energy storage, ...
