Who is island solar Fiji?

Island Solar Fiji is your trusted installer of quality solar systems and battery storage. We work with you to improve your power reliability and save the planet.

Who makes the best solar inverter in Fiji?

Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji. Fronius, Sungrow, and Selectronic are renowned inverter manufacturers known for their exceptional quality and performance.

When was the first off-grid solar system installed in Fiji?

In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region. Clay Energy's first PV grid-connect system (18kW) was installed and commissioned in 2008, being the first in the region.

Why should you choose island solar Fiji?

Island Solar Fiji ensures its commitment to quality and reliability by exclusively partnering with trusted and reputable solar brands. Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji.

Craig Andrew of A Grade Solar Solutions installed all panels and racking to higher specifications than the manufacturer's recommendations and housed the inverters and battery bank in the shipping ...

Supports Fiji's target of achieving 100% renewable electricity and a 30% reduction in greenhouse gas emissions by 2030. Impact of selecting the right/appropriate renewable technology (solar, wind, ...

Island Solar will help you choose the right inverter to ensure that your solar system benefits from top-tier performance and longevity.

The subcontractor will conduct capacity building trainings in Fiji on management and O& M of solar PV systems, and other solar application technologies, with the aim of strengthening local capacities in ...

Fiji Photovoltaic Hybrid Inverters empower sustainable development through intelligent energy management.
