Title: Free quote for wide-temperature range data center cabinets for chemical plants

Generated on: 2026-03-01 00:13:52

Where are data center custom server cabinets made?

AMCO Enclosures offers data center custom server cabinets, cases, cages, cable management, and PowerWhips products. All our custom data center network racks and server racks are manufactured right here in the USA at our facility in Des Plaines, IL. This includes data center custom server cabinets, cases, cages, cable management, and PowerWhips products.

What is the zetaframe® cabinet system?

Optimize space, power, cooling, and more with the ZetaFrame® Cabinet System -- a fully integrated solution designed for high-density deployments, AI, and HPC. Unlock greater flexibility, security, and high-power capacity--supporting up to 100A inputs and delivering dependable power for AI, HPC, and evolving rack densities.

How long does a server cabinet last?

For example, a cabinet is, on average, used for 15-20 years, while servers have a typical lifespan of only 3 to 5 years. It is, therefore, key that the cabinets are designed with the flexibility to accommodate both existing needs and future changing requirements for when equipment changes.
