Do you assemble rechargeable lithium batteries?

We develop and manufacture customised packs - inclusive: In addition to NiMH and NiCd-We do not assemble cells either- rechargeable lithium battery packs. We take care of the certified and professional disposal of all types of batteries. In most cases, the raw materials can even be completely recycled.

How are lithium-ion batteries made?

Battery modules for lithium-ion batteries consist of several battery cells that are connected to each other. Their production takes place in automated assembly lines (partly under dry room or cleanroom conditions). Very high speed and precision as well as maximum cleanliness are important factors for economical production of the modules.

What are the different types of battery packaging solutions?

The solutions include workpiece carriers, containers and magazines. Our battery packaging can be made from conductive plastics and protects your sensitive components from dangerous electrostatic discharges (ESD). They are also suitable for semi-automated and fully automated handling.

How do I contact Varta for a lithium-ion battery pack?

We would be happy to help you with any questions about our lithium-ion battery packs! Call us on the phone number: +49 172 9939874 or The perfect lithium-ion battery pack solutions from VARTA for your product. Infinite diversity needs infinite creativity.

We can provide technical support and advice on battery design and prototyping, and we can help you avoid risks through our R& D and manufacturing experience to help your project run more efficiently ...

Our battery packs are assembled in Germany - with tested branded cells and experienced technical support. Our customers appreciate the direct contact: Expert, practical advice for specialists from ...

When exploring the Custom Lithium Battery industry in Germany, several key considerations come into play. First, understanding local regulations is essential, as Germany has stringent safety and ...

At Lithion, all of our battery packs are of the highest quality and efficiency. To simplify your choices, you can contact us and together we can talk through your unique energy requirements to create custom ...

These modules can be interconnected to build energy storage systems of virtually any size - up to
