Solar for All will deliver on the Biden-Harris Administration's commitment to creating high-quality jobs with the free and fair choice to join a union for workers across the United States. This \$7 ...

2024 program year has received over 50,000 applications to date; 2023 program year resulted in \$3.5 billion in clean energy investments from more than 49,000 solar facilities in low ...

To accomplish its goals, the U.S. Department of Energy Solar Energy Technologies Office issues funding opportunities.

We look at how governmental actions transform the renewable landscape and what lessons can be applied to enhance solar energy adoption nationwide.

Called Solar for All, they're intended to make clean energy accessible by offering free or low-cost rooftop solar panels or community solar access.

As part of President Biden's Investing in America agenda, the U.S. Department of Energy (DOE) today announced several new solar energy investments to cut home electricity bills and ...

A new Environmental Protection Agency program is giving \$7 billion to programs that fund rooftop solar panels, batteries to store solar energy and something called community solar.

On Monday, which happened to be Earth Day, the Joe Biden administration announced that it's awarding \$7 billion in grants for the installation of residential solar projects.
