The Log9 company is working to introduce its tropicalized-ion battery (TiB) backed by lithium ferro-phosphate (LFP) and lithium-titanium-oxide (LTO) battery chemistries.

Highjoule successfully deploys 1MW off-grid photovoltaic storage system in Guinea using innovative solar folding containers, providing sustainable energy for remote mining operations.

Two towns in Guinea, a country in West Africa which grapples with issues of energy security, are reaping the benefits of newly installed solar PV (photovoltaic) mini-grids backed with battery energy ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal operating ...

We are committed to excellence in solar power plants and energy storage solutions. With complete control over our manufacturing process, we ensure the highest quality standards in every solar ...

The 10kWh battery is a DC coupled battery system that is more suitable for your upcoming solar system installation with higher conversion efficiency. To give you peace of mind that you're getting clean, ...

What is HJ mobile solar container?The HJ Mobile Solar Container comprises a wide range of portable containerized solar power systems with highly efficient folding solar modules, advanced lithium ...

1MW foldable solar container solution transforms energy supply for remote mining operations in Guinea. Discover the innovative PV container system with energy storage.
