The Bulgarian solar energy sector is witnessing a remarkable transformation as the country's solar power capacity surges past expectations, with the biggest photovoltaic parks coming ...

Achieving the 1 GW target for new solar capacity on the grid in 2023 and bringing the total PV fleet close to 3 GW puts Bulgaria on track to fulfill its 3.2 GW NECP targets for 2030 seven ...

List of solar power plants in Bulgaria from OpenStreetMap

A 16.2 MW solar power plant in Zdravetz, Bulgaria was expected to be completed in June 2012, with power being sold for \$0.30/ kWh in a fixed rate 20 year power purchase agreement.

In the last two years, the combined nameplate size of solar power installations in Bulgaria has doubled to more than 2.4 GW and additions peaked this summer. Moreover, in the ...

Solar power generated 12% of Bulgaria's electricity in 2023. By the end of 2020 about 1 GW of solar PV had been installed. It has been estimated that there is potential for at least another 4 GW by 2030. By the end of 2024 about 3.9 GW of solar had been installed. On March 13, 2023, peak photovoltaics power was 30% of Bulgaria electricity gener...

Bulgarian photovoltaic association is a non-profit organization unifying more than 400 companies from the renewable energy sector in Bulgaria. Our members are companies with different ...

Data and information about Solar power plants and their location plotted on an interactive map of Bulgaria.
