The scheme will fund up to 6 kWp of roof-mounted solar PV for all eligible schools, and includes connection to the grid and a monitoring system and display screen.

There has been a huge uptake in solar panels in Irish schools, with more than two thirds of the 4,000 schools in the country either already installing solar panels, or having tendered for them.

Free solar panel installations offered to schools across Ireland, helping to reduce energy costs, carbon footprints, and provide an education to students about renewable energy in an effort to ...

All schools are now eligible to apply for free solar panels which will cut electricity costs through the use of renewable energy.

At the heart of the SPP is the vision to empower primary and post-primary schools across Ireland with solar energy. This program is designed to provide comprehensive guidance and full funding for the ...

The Department of Education for Ireland is making photovoltaic solar panels available to thousands of primary schools, using a fully digitised, end-to-end process built with Esri's ArcGIS ...

Thanks to the Solar for Schools programme, up to 4,000 schools nationwide are now eligible to install fully-funded solar panels, reducing their energy bills while taking a major step towards sustainability.

The solar PV panels in schools are being connected to the electricity grid, so that solar energy can power other homes and businesses when schools are closed at weekends and during ...
