As solar energy adoption grew, dishonest companies exploited incentives, tax credits, and financing programs. In fact, complaints involving solar panels continue rising nationwide, showing ...

This article explores the most common solar panel scams, provides tips to recognize red flags, and offers guidance on protecting yourself from fraudulent solar companies.

What actually happens: The scammers either make off with your deposit or they install the panels but never produce the rebate. Also, the panels often aren't as efficient as they claim.

Not all door-to-door solar sales are considered scams, but what they pitch should be taken with a grain of salt. Going solar is expensive and shouldn't be an impulse decision, no matter how...

As solar energy adoption grew, dishonest companies exploited incentives, tax credits, and financing programs. In fact, complaints involving ...

Scammers across the U.S. are going door-to-door, pitching "free" solar energy systems. Many homeowners never get any solar equipment installed; those who do often get shoddy work. ...

To avoid getting scammed, you need to know what to look out for and when to walk away. Here's our guide to spotting solar panel scams and finding a great installer.

Con artists use misleading sales tactics and lies to trick homeowners out of money and personal information. If you've received an offer for "free solar panels," it could be a scam. Always ...
