Since it went to press, regulators in Italy approved new auction rules for grid-scale storage and gave the green light to a 200MW/800MWh battery energy storage system (BESS) project from UK developer ...

This research considers approx. 65"000 Italian office buildings and defines two main typologies (a small office model and a medium office model) as the most representative.

This work aims to estimate the potential for energy savings and CO 2 reduction of the Italian office building stock according to the Taxonomy guidelines.

Battery storage projects have a wealth of opportunities to target, from ancillary services to capacity markets to energy trading, and devel-opers are now positioning projects to best take advantage of ...

In this paper, an analysis methodology to evaluate large-scale energy retrofit programs for existing buildings is proposed and applied on the Italian office building stock.

Ever wondered why Italy, the land of sun-drenched vineyards and historic ruins, is suddenly making waves in energy storage project management? The answer lies in its ambitious ...

This study analyzes the energy performance of hundreds of Italian office buildings using data from mandatory energy audits submitted by large banking and insurance companies.

Explore high voltage battery packs, wall mounted lithium batteries, and ESS cabinets from Hoenergy -- your 2025 Global Tier 1 Energy Storage Provider.
