The Kenya Electricity Generating Company PLC (KenGen) has announced plans to implement a Battery Energy Storage System (BESS) as part of the Kenya Green and Resilient ...

KenGen has commissioned its first Battery Energy Storage System (BESS) in Nairobi to power its modular data center, ensuring uninterrupted renewable energy supply.

Kenya Electricity Generating Company (KenGen) is powering forward with its green energy ambitions, officially launching the prequalification process for a 42.5 MWac solar PV plant ...

Kenya is stepping up its renewable energy efforts with a newly announced solar-plus-storage project, aiming to enhance energy security and grid stability in a region heavily reliant on ...

KenGen Kenya is developing a 42.5 MWp floating photovoltaic array at Kamburu Dam (part of the "Seven Forks" cascade), paired with a 3 MW/4.5 MWh battery-energy storage system ...

The BESS project will reduce the impact of intermittency on the grid and store power for use during peak hours. KenGen is working with the World Bank to fast-track implementation of the ...

NAIROBI, Kenya, Feb 3 - Kenya has renewed its call for faster deployment of solar energy and battery storage as Intersolar Africa 2026 officially opened at the Sarit Expo Centre in Nairobi, ...

The tender details state that the project will consist of a 42.5 MW solar plant alongside a battery energy storage system of 3 MW/4.5 MWh or higher. Project works will also encompass the...
