A subsidiary of German energy giant E.ON, EcoVolt's piloting Kosovo's first grid-scale flow battery installation near Gjakova. The 5MW/20MWh system could power 8,000 homes during outages.

The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis.

Kosovo will be the first country in the Balkan region to invest in a 170 MW battery storage system which will stabilise energy fluctuations by addressing imbalances between supply and consumption.

Kosovo has taken a significant step towards a sustainable energy future by granting its first-ever licenses for battery energy storage systems.

The new hybrid storage system developed in the HyFlow project combines a high-power vanadium redox flow battery and a green supercapacitor to flexibly balance out the demand for electricity and ...

Today we are here to mark a necessary and appropriate step in the development of Kosovo's energy sector, as we officially open the pre-qualification process for the construction of ...

While lithium-ion batteries dominate headlines, Kosovo's project leans on LFP (Lithium Iron Phosphate) cells for safety and durability [8]. Think of LFP as the "Honda Civic" of ...

The Resident Country Director of the Millennium Challenge Corporation, Rinor Gjonbalaj, highlighted that the energy storage system will be the first of its kind in the region. According to him, ...
