What is a multitenant outdoor cabinet?

Vikino's multitenant outdoor cabinets enable multiple operators or equipment types to share the same protected infrastructure. Segmented internal layouts and isolated compartments ensure electrical and thermal separation, making them ideal for shared telecom or co-location sites. Get technical specifications and pricing tailored to your project.

What are ABS cabinet solutions?

Constructed to provide superior protection in all environments, ABS cabinet solutions offer maximum flexibility for customizable turn-key options that future proof growing networks. Designed to save deployment cost and time, our innovative solutions include hub collapse, battery backup, composite mounting platforms and modular series cabinets.

Can a walk-in cabinet be built from the factory?

The cabinet lineup can be built and shipped direct from the factory in the desired configuration. Amphenol Walk-In Cabinets (WIC) are protective walk-in enclosures housing an integrated system of electronic components and equipment that can serve fiber and copper interfaces.

What is an Amphenol walk-in cabinet?

Amphenol Walk-In Cabinets (WIC) are protective walk-in enclosures housing an integrated system of electronic components and equipment that can serve fiber and copper interfaces. The WIC offers a lighter weight alternative to concrete base station shelters providing a lower total cost of ownership.
