A photovoltaic energy storage system quietly humming on the rooftop. This isn't sci-fi; it's today's reality for smart retail spaces adopting solar+storage solutions.

Features Heavy batteries demand a solar battery box with extra strength and durability. In order to protect outdoor batteries from weather and damage, AZE manufactures custom NEMA 3R enclosures.

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet. It delivers clean, ...

It is built specifically for outdoor installation and integrates advanced LiFePO4 battery technology, a high-level battery management system, and secure weatherproof housing, making it ideal for ...

High quality large weatherproof enclosures for batteries and electronics. Expert advice and complete systems. Over 20 years experience.

Shopping malls and other big-box retail facilities are the perfect places to install a solar system. Most shopping centers have large, flat, empty roofs that can easily accommodate solar panels.

Our team of experts designs, installs and optimizes photovoltaic systems that make the most of the sun's energy to meet the energy needs of large commercial complexes.

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.
