What is a SmartTrack®; modular data center?

SmartRack®; Modular Data Centers are composed of IT rack, cooling and service enclosures that together form a performance optimized data center, or POD. This innovative design enables easy configuration and maintenance. It also lowers costs by reducing the overall cycle time to deploy a data center from months or weeks to just days.

What is a RakworX Smart Modular data center?

RakworX's Prefabricated Smart Modular Data Center (MDC) is an energy-efficient, high-performance solution with natural air cooling for a PUE as low as 1.1. It's a fully contained, adaptable data center designed for rapid deployment, scalability, and growth. Our Small Chamber add-on optimizes airflow, enhancing cooling by containing cold air.

What types of rack enclosures are available?

From IT racks to network racks to data racks and more, we have the solution for your application. Premium rack enclosures for advanced applications, including real device testing racks, RF/EMI shielded racks, smart server racks, pre-customized data center racks, and more.

What is a modular data center?

These modular systems are ideal for companies that need to move quickly without sacrificing performance, reliability, or compliance. Whether deploying a single rack or building a multi-megawatt facility, modular data centers are built to adapt to your infrastructure goals. If playback doesn't begin shortly, try restarting your device.

SmartRack modular data centers from Eaton combine IT rack, cooling, and service enclosures to create a solution for critical IT equipment with up to 150 kW of equipment load.

SMART SOLUTIONS REFERENCE SUMMARY Solutions Design 150kW 11 Racks with Containment ... Performance Highlights SmartAisle™ technologies result in a superior PUE performance and ...

Designed to allow IT equipment to be pre-installed by the customer, partner or integrator before shipment, it features complete data center physical infrastructure and management software in a ...

BMarko Structures designs and manufactures custom prefabricated modular data centers built to meet the growing demands of today's edge computing, cloud infrastructure, and AI workloads.
