SCW - Smart Curtain Wall is leader in the design, manufacture and installation of glass facade for building envelopes, becoming your global partner throughout the entire project process..

Traditionally used to cover building structures, our opaque spandrel photovoltaic glass delivers superior energy efficiency with high solar energy yield, thanks to its dense solar cell integration.

Our proprietary R& D technology and flexible OEM manufacturing capability enable us to offer unique solar solutions, including custom designs, patterns, colors, shapes, and sizes.

We manufacture extensive variety of custom BIPV solar panels in size, shape, color, transparency and efficiency. All our PV products can be produced with full or cut solar cells as per demand.

We combine double glass construction with back contact cells and can even customize the size, shape, and electrical configuration. Whether you need a 100W small panel for an RV or a 710W ...

The PV curtain wall adopts the double-sided glass module made of ultra-white tempered glass, which can achieve specific light transmittance requirements by adjusting the arrangement of ...

This should include the dimensions, materials, and specifications of the curtain wall. It is also essential to ensure that the building structure is strong enough to support the weight of the glass panels.

Customize your photovoltaic glass with Onyx Solar. Choose from a wide range of colors, sizes, transparency levels, and shapes to meet your aesthetic and energy needs. Tailor every detail to ...
