The Emirati state-owned renewables developer Masdar has begun construction on a giant solar-plus-storage project in Abu Dhabi.

Egypt's Benban Solar Park is a \$4 billion project in Aswan, comprising 41 solar power plants. One of the biggest solar photovoltaic parks in the world, it spans 37 square kilometers with ...

The Middle East and North Africa (MENA) region is emerging as a global solar energy leader. With falling solar costs, government-backed clean energy strategies, and strong partnerships ...

From the sprawling solar parks of the UAE to pioneering projects in Saudi Arabia, these solar power projects showcase the Middle East's technological advancements and commitment to a ...

Saudi Arabia's Red Sea Project will feature the world's largest photovoltaic-energy storage microgrid with a 400MW solar PV system and 1.3GWh storage capacity.

Explore 10 renewable energy projects in the Middle East, showcasing solar, wind, and battery storage advancements set for 2025. Read more here.

The Middle East has long been synonymous with oil wealth, powering economies and fueling global energy demands for decades. However, the world's growing urgency to combat climate ...

The holistic solar project tracker covers 100+ number of under construction, announced/proposed, pre-construction solar PV projects across all countries of Middle East.
