AEME 100kW Modular PCS - Seamlessly integrates PV, batteries & diesel gensets. Enables multi-port energy dispatch, PV priority, peak/valley, hybrid supply & backup.

The B-Cab (battery storage cabinet) is based on lithium iron phosphate (LFP) chemistry and an efficient thermal management system, ensuring safety thanks to liquid cooling and a fire protection system.

With 100kW PCS and 215kWh of LiFePO₄ battery storage, it delivers robust, efficient, and versatile energy management. This solution integrates advanced BMS and EMS technologies to provide real ...

Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage cabinets also adhere to safety and quality ...

This industrial and commercial battery storage system is the ideal compact solution for your battery projects to work alongside solar PV, EV chargers and back up power requirements.

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

Anern liquid cooling energy storage system cabinet is an energy storage device based on 100kw lithium battery. C& I energy storage system. High energy density, high charging and discharging power, long ...

- Designed according to the specific UPS model for easy connections, correct recharge current and appropriate discharge rating to optimize battery life. - Modular hot-swap battery cabinets with string ...
