-----

A set of two pictures then demonstrate the unique pullout steps (port & starboard) that lead up to the two opening window doors (windoors) allowing access to the outside foredeck and solar roof.

Bluesun Solar provides complete solar power system solutions including on-grid, off-grid and BESS systems for residential, commercial and utility-scale projects worldwide.

The main feature of the MOG SHED is the Moveable Off Grid solar power system. The solar array, batteries and inverter delivers plenty of power to your site. Run your compressor, cement mixer, ...

The MOG Canal Boat is a TOTALLY SOLAR POWERED yacht and electromotive drive system. The initial concept laid to CAD was in 1986 when George McNeir wanted an enclosed boat ...

The MOG solar electric yacht is powered entirely by a solar electric system. The center outboard engine is fossil fueled and not operating. The other two outb...

The MOG is a 40ft solar powered motor yacht. This is a shake-down cruise using the thrust of the two electric motors guided by a hand-held joy stick.

This is just a quick collage of video clips of the 40 foot long, 12,000 pound, Totally Electric Powered Solar boat being driven by only ONE of the three Torq...

In an effort to mitigate carbon emissions while extending electricity access, we study an integrated mobile energy management system that couples micro off-grid (MOG) plants with ...
