PowerPoint Systems specializes in clean power and solar energy solutions, offering a range of products including lithium-ion batteries, which are highly efficient for energy storage in solar systems.

Our team of experts works closely with you to design and install customized solar storage solutions that maximize efficiency and savings. From the initial consultation to the final installation, we ensure a ...

Designed using premium LiFePO4 (Lithium Iron Phosphate) cells, this modular rack system ensures safety, efficiency, and scalability in any hybrid or off-grid setup.

GSL ENERGY offers a wide range of lithium solar batteries and lithium-ion solar battery systems that are tailored to the Kenyan environment, designed to withstand hot climates, intermittent ...

Advanced lithium battery energy storage systems for reliable backup power, peak shaving, and load shifting. Reduce electricity costs significantly. Future-ready electric vehicle charging stations powered ...

AZE's lithium battery energy storage system (BESS) is a complete system design with features like high energy density, battery management, multi-level safety protection, an outdoor cabinet with a modular ...

Power & Solar Systems Ltd We are an electrical engineering company based in Nairobi, Kenya to provide solar power products and solutions.

AceleAfrica, a pioneering advanced lithium battery developer headquartered in Nairobi, is dedicated to accelerating the Africa transition towards cleaner, renewable energy sources.
