What does energy security mean for Niue?

Energy security for Niue encompasses everyone's access to modern, reliable and safe energy services. It includes energy generation, distribution and consumption becoming more cost-efficient and affordable, and the energy infrastructure in Niue becoming climate-proof and resilient.

What is the Niue strategic energy road map?

The Niue Strategic Energy Road Map 2015-2025 is government's effort, at the national level, to work with its national and regional partners and the global community to unlock the development potential of Niue and to contribute to addressing climate change.

What percentage of energy is produced in Niue?

Currently, 68% of the total energy produced in Niue is from biomass, 30% from solar PV and 2% from LPG.

Will Niue meet 80% of its electricity needs by 2025?

The NiSERM outlines Niue's aspiration to meet 80% of its electricity needs from renewable energy sources by 2025, which would in turn reduce the country's high reliance on imported fossil fuel. This aspiration underpins Niue's contribution in this INDC, outlined in Section 6.

In 2005, the country adopted the Niue Energy Policy and Energy Action Plan, which laid out its commitment to energy efficiency and renewable energy, in particular its 100% goals.

Overview of Niue Strategic Energy Road Map 2015 - 2025 Niue Energy Policy 2005 Niue Strategic Energy Road Map 2015 Goal 1; Significant RE integration to the Grid 40% by 2020 80% by 2022 ...

The purpose of the National Energy Policy and Guidelines is to restate Niue's energy policies in conjunction with detailed guidelines that will provide the blueprint for Government's energy officials in ...

The Niue Strategic Energy Road Map 2015-2025 (NiSERM) builds on the 2005 Niue National Energy Policy and the Niue National Strategic Plan (NNSP) 2014-2019, and is aligned to current national, ...

The Niue Renewable Energy project currently being constructed near the airport comprises a 2.79MWp photovoltaic solar array, 8.19MWh Battery Energy Storage System and significant upgrades to the ...

This roadmap represents a whole-of-government approach to addressing the energy security challenges of

Niue which looks at the energy sector as a whole - electricity, renewable energy, energy efficiency ...

Niue's National Energy Policy represents the Government's vision for the development of its national energy sector over the next 10-15 years. It sets down the Government's policies or goals for the ...

With the upcoming reintegration of the BESS and solar farms by December, Niue is poised to move closer to its goal of 80% renewable energy production by the end of 2025. The ...
