What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.

Our 10kW-100kW Hybrid Solar Energy Storage System is engineered to meet the demanding energy needs of commercial and industrial sectors, including hotels, office buildings, hospitals, and shopping ...

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular design for easy ...

These modular systems combine solar panels, energy storage, and smart management to deliver reliable power. Whether you're a project developer, city planner, or business owner, this guide ...

Liquid-Cooled Plug & Play Container 10 FT ENERGY STORAGE 500 kW / 1.044 kWh / 400 V

Designed for flexibility and performance, this advanced energy storage system ensures uninterrupted power supply, making it the preferred choice for facilities aiming to enhance their energy management.

Discover solar powered shipping containers with 10-50KW off-grid systems, lithium batteries & 25-year capacity guarantee. Ideal for solar powered AC and cold storage.

Nordic container energy storage system manufacturers are leading the global shift toward modular, scalable
