CABINET DOOR INSTALLATION (continued) et doors feature 3-way adjustable hinges. It is rec ended to do the height adjustment first. Loosen the top & bottom screw on each mounting base, then use ...

There are two side burner (OBB) cabinet styles - one placing the burner at countertop level and the recessed cabinet (LOW) placing the burner 7" below the countertop.

Most outside areas are slopped for drainage, so start with the cabinet at the highest point of the slope. Set the first cabinet at that point adjusting the legs to set the top of the cabinet to 34-3/4? high.

Once cabinets are properly leveled and installed, no drawer adjustment should be required. In the event the drawer does need adjustment, locate the proper adjustment lever(s) on the underside of the drawer.
