What is a modular data center?

These modular systems are ideal for companies that need to move quickly without sacrificing performance, reliability, or compliance. Whether deploying a single rack or building a multi-megawatt facility, modular data centers are built to adapt to your infrastructure goals. If playback doesn't begin shortly, try restarting your device.

How can a data center be customized?

Nearly every aspect of the data center can be customized--from rack layout and power configuration to cooling type, flooring, lighting, and security systems. We design each system to meet your specific technical requirements, environmental needs, and long-term goals.

What are the most common mobile data center use cases?

Here are some of the most common mobile data center use cases: Used during facility renovations, seasonal demand spikes, or IT refreshes where quick, short-term compute is needed. Ideal for emergency scenarios. These units can be rapidly deployed to restore data access and computing power in remote or impacted areas.

What is a prefabricated modular data center?

A prefabricated modular data center is a factory-built structure designed to house IT infrastructure in a fast, efficient, and scalable way. Unlike traditional data center builds, these systems are assembled offsite and shipped ready for rapid deployment.

Discover how malls and big-box stores are being converted into data centers, unlocking new real estate opportunities for colocation and wholesale providers.

Nearly every aspect of the data center can be customized--from rack layout and power configuration to cooling type, flooring, lighting, and security systems. We design each system to meet your specific ...

Schneider Electric Prefabricated Modular Pod Data Center is engineered for speed, scalability, and flexibility. It supports up to 40+ high-density racks per pod with hybrid liquid-air cooling.

Ground-Mounted Load Capacity, with Locking Glass Door Side Panels, for IT Equipment, A/V Devices. Need help?

Deploy technology at the edge or anywhere your data is generated with modularized, integrated racks, fully
