Gain a deep understanding of how Power Purchase Agreements (PPAs) work and explore the 8 different PPA structures available for renewable energy projects.

A Power Purchase Agreement (PPA) is a long-term contract between a buyer and a power generator, where the buyer agrees to purchase electricity at a pre-agreed price for a set period.

A PPA is a contract between two parties, one who produces or generates power for sale (the seller/producer/project company) and one who seeks to purchase power (the buyer/offtaker).

To apply for solar energy from the power supply bureau, one must follow several steps that include the submission of an application, the examination of technical requirements, and the ...
