In India, a 100kW solar power system can be priced from Rs. 30,00,000 to Rs. 55,00,000. However, with government support, the system becomes significantly more affordable.

They can provide a professional commercial solar proposal and quote based on your electricity usage, equipment data sheets, and pictures of the installation site.

Note: If you need a quote for lithium battery design, please contact solar@pvmars to obtain it. Below are the product parameters and pictures of the 100kw solar plant.

For 100kW Solar Plant, single phase inverters by Solis or Sofar / Growatt are excellent pick. For a more premium segment, Fronius / Solaredge offers good reliability along with customer service.
