Which solar inverter should I buy in 2025?

Every solar system needs some kind of inverter to convert sunlight into usable electricity. CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025.

How do I choose the best solar inverter?

Choosing the best solar inverter comes down to efficiency, voltage performance, warranties, and price. We looked at all these factors in dozens of models featured on the EnergySage Marketplace to determine the best inverters of 2025. Five brands stood out: SolarEdge, Tigo, Enphase, Hoymiles, and Schneider Electric.

How much is a smart solar inverter worth?

Some even use machine learning to help energy flow and make systems work better. Many governments, like in the USA and India, want smart inverters for new solar projects. This rule helps the smart inverter market grow. It may be worth over \$10 billion by 2027. Experts use important things to rank the top 10 solar inverters:

What is the most expensive solar inverter?

Unsurprisingly, that top-notch technology comes at a price. EnergySage data from the second half of 2024 shows that solar panel systems with this SolarEdge inverter cost \$2.90 per watt (that includes the inverter and solar panels), making the Home Hub the most expensive inverter on our list. 2. Best voltage performance: Tigo EI Inverter TSI-7.6

Many people check how inverters perform and read reviews before buying. The top 10 solar inverters are known for great technology and trusted brands. Each person should think about ...

Below, we examine the best residential solar inverters for 2025 based on quality, features, monitoring, warranty, service, and feedback from solar installers and industry professionals.
