What is a Verizon device payment plan?

With the Verizon Device Payment plan, customers have the freedom to upgrade their device early and pay for their device in monthly installments over 24 months instead of paying the retail price all at once. While many other carriers offer a similar installment plan to comfortably pay for a new phone, Verizon's plan is unique in several ways.

Do I need a device payment Installment Agreement?

Customers should be aware that an installment agreement is required to purchase a device under the device payment Program. Device payment customers must also agree to the Verizon Wireless Customer Agreement, their calling plan, and other important terms. Can a customer pay more than the scheduled monthly device payment installment?

How do device payments work?

When you purchase a device with a device payment agreement, the retail price of your device is divided into monthly installments. So a phone that retails for \$799.99 stretched out over 36 monthly device payments would be around \$22 a month.

Will devices on the device payment program be covered?

Yes, Devices on the device payment program will be covered. It is vital for potential Verizon customers to understand information on Installment Agreement and Payment plans past the basic info. Below is a look at the more subtle rules to the device payment program contract. Why does the device payment program require two agreements?
