China's SAJ has released a series of compact microinverters with four MPPT channels. The SAJ M2 line supports PV panels ranging in size from 400 W to 700 W and has a DC current ...

The SAJ-M2-2K microinverter is the best choice for homeowners looking to maximize their energy efficiency while ensuring maximum protection and reliability. SAJ-M2-2K micro inverter not only ...

The SAJ M2 series microinverters are compact and seamlessly integrated into solar panels, making them an excellent choice for small to medium sized residential users. This ...

The micro-inverter converts the DC electricity generated by solar panels into AC electricity which is in accordance with the requirements of the public grid and sends the AC into the grid, reducing the load ...

Explore SAJ Electric M2 Series solar micro inverters with high-efficiency and multiple MPPTs. View features, specifications, and competitive pricing.

Built for reliability and safety, this DC micro inverter operates flawlessly in harsh environments, maintains constant connectivity, and includes advanced safety features for complete peace of mind.

M2 series micro inverter is a new product launched in 2023. The micro design provides a maximum of 2200W output power which is suitable for general uses in daily life. IP67 protection supports M2 to ...

Harness the full potential of your photovoltaic panels with the advanced M2 featuring 4 MPPTs. Each panel is assigned its own MPPT, optimizing energy output and maximizing efficiency. Take energy ...
