Is Chile preparing a tender mechanism for large-scale energy storage facilities?

The president of Chile, Gabriel Boric, has said that the government is now preparing a bill to establish a tender mechanism for large-scale energy storage facilities. The measure aims to maximize the use of renewable energy generated in the northern part of the country.

When will large-scale energy storage projects go online in Chile?

The Chilean authorities plan to hold the first procurement exercise for large-scale storage projects in 2024, with the first systems expected to go online in 2026. The president of Chile, Gabriel Boric, has said that the government is now preparing a bill to establish a tender mechanism for large-scale energy storage facilities.

Does Chile have a capacity payment system?

Since 1982, the Chilean market has recognized capacity payment for plants that contribute adequacy to the electrical system. With Law 20.936 of 2016, the existence of energy storage systems (Energy Storage Systems or SAE) and hybrid energy systems (Renewable Plants with Storage Capacity or CRCA) was recognized in the law.

What is a renewable plant with storage capacity (CRCA)?

Renewable Plants with Storage Capacity (CRCA): Renewable generation plants that use variable primary resources, composed of a generation component and a storage component, both connected to the same point of connection to the electrical system.

Chile wants 70% renewable electricity by 2030, and storage is the glue holding that goal together. With tenders like this, the country could outpace Brazil's Amazon Wind Complex and ...

The government of Chile will launch a bill this year to procure large-scale energy storage systems for commissioning in 2026 totalling US\$2 billion of investment, on top of 5GWh already ...

The plant is Chile makes progress on energy storage with Oct 22, & nbsp;& #;& nbsp;With 23 energy storage projects already approved, totaling an impressive 3,000 MW of capacity, Chile is at the ...

Chile Valparaiso Energy Storage Battery Shell Wholesale Solutions for Renewable Projects Discover how high-performance battery enclosures are powering Chile's renewable energy transition.

Payment for renewable plants with storage capacity: Updated rules outline a method for determining the
