With the launch of Walo Storage, Senegal's energy sector enters a new era of sustainable solar power and reliability.

Senegal's state utility Senelec has signed a 20-year capacity change agreement with Egyptian/UAE developer Infinity Power to supply a 40 MW battery energy storage system ...

TU Energy Storage Technology (Shanghai) Co., Ltd., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery ...

With 15 years in renewable energy storage, we specialize in turnkey photovoltaic systems for commercial and utility-scale projects across West Africa. Our modular battery designs and localized ...

Energy Resources Senegal (ERS), through its subsidiary Teranga Niakhar Storage (TNS), has successfully secured financing for the Niakhar Solar + Storage project, a 30 MW ...

Senegal and sustainable infrastructure developer Africa REN have commissioned the Walo Storage facility in Bokhol, marking the first grid-connected solar-plus-battery installation of its ...

Senegal's solar capacity grew 300% between 2018-2023, but here's the catch - sunlight isn't 24/7. Our containerized systems act like 'energy batteries on wheels,' storing excess solar power for night use ...

Combining photovoltaic solar with a storage system is a unique solution to meet the current and future needs of the grid. In order to complement and intensify our local impact, Walo Storage is committed ...
