Under the PPA, Qair will develop, build and operate on the lagoon of Providence a 5.8 MWp floating solar plant to supply renewable energy to the Seychelles grid.

The Solar Farm has doubled the amount of energy produced from renewable energy in Seychelles, reduced the emission of greenhouse gases related to electricity produced from fossil fuel, and ...

At Solarvance, we offer salt-resistant, storm-ready solar systems tailored for tropical island conditions. Whether powering a clinic in Anse Royale, a hotel in Beau Vallon, or a school in La Digue, our ...

Now, thanks to a 25,000 Euro grant from the German Federal Foreign Office, through the German Embassy in Nairobi, Kenya, a new, modern, and powerful photovoltaic system has been ...

Discover how smart grid technology combined with solar and storage delivers energy independence and massive cost savings for island nations like Seychelles, Maldives and Caribbean ...

This 10MW solar farm is a direct and powerful response to that challenge, diversifying the energy mix and paving the way for a more stable and self-sufficient power supply. Powering the ...

To date, affordable and effective solar and battery storage systems have opened up new possibilities for the archipelago, particularly in its high-end tourism sector.

A grant from the German government made this solar installation possible (Photo: Contributed) Imagine waking up, glancing at your phone, realising your battery is at 2%. You rush to ...
