Remind prospective customers that while tax credits, rebates, and incentives might be available for solar purchasers who qualify, offers for "free" or "no cost" solar panels are scams.

You'll want to check a few details to confirm that your solar ...

Are solar panels a scam? Solar panels themselves are not a scam. When the sun shines on solar panels, they produce electricity that can be used to power appliances and devices in your home. ...

In this type of scam, fraudsters lure homeowners by offering "free" solar panels, claiming that government programs or grants will cover the entire cost of installation. While incentives such as ...

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll ...

Beware of solar companies engaging in deceptive practices, including the ...

Legitimate solar energy companies typically encourage clients to reach out after conducting their research. A poor online presence, lack of customer support, or unprofessional ...

Scammers are taking advantage of this, presenting homeowners with offers that sound too good to be true, and misleading people into giving them thousands of dollars. Q. What do these ...
